The committee on education and special training has mapped oua a tentative plan to be followed at all schools. The month of October will be utilized as a preparatory season for football. Trapshooters are essentially sports, and the driving of a truckioad of ammunition in the front-line zone "over there" is essentially a sporting proposition. One can well imagine how the average trapshooter would jump at the chance for immediate service overseas and in the very thick of the most sthring doings.

There is nothing suggestive of a "bomb-proof" job about a service which sends stout hearts along roads under enemy fire with needed rations for the boys in the front-line trenches or speeding up to carry shells bateries of artillery whose guns keeping up a ceaseless drumfire on the hordes of Prussianism.
